### THIS ENERGY SHORTAGE

... bit could get serious, especially to those people who have long ago succumbed to the pleasantries of life by becoming addicted to the comfort provided by air conditioning.

Ask my family. Or the Fridle family who came to visit.

The old cooling unit went on the blink Sunday and by early evening -- six or seven o'clock -- the temperature gauge shot up to 90 degrees inside.

Most modern homes just aren't constructed to achieve maximum ventilation from an outside source. And ours is no different. With all the windows open it's almost impossible even to flag down a breeze much less get it to pass through the house.

So, if an energy shortage develops to the point where air conditioners must be turned off, take it from us, it can be uncomfortable.

### ONE BRIGHT FACE

... on the Watergate scene has been that of Sen. Howard Baker [Rep. Ten.]. He does a good job, no, make that great job, interrogating the wrongdoers. So good in fact, that many Republicans are touting him to lead the ticket in 1976.

That is why I was extremely surprised to read in a Sunday supplement that his wife works in his Senate office. Nepotism, although practiced by many office holders, is not the brightest public relation builder. So, if Baker's wife is drawing a government payroll, then it certainly tarnishes the senator's image in my eyes.

The hiring of one's relatives by office holders or in state agencies and departments has been practiced down through the ages, and until the last few years it has been accepted, though frowned upon.

Some State agencies supposedly have written rules against the practice, but it still goes on from the Governor's office to some start department office here in Hondo. And as the Sunday supplement said, even in Senator Baker's office.

### THE CORN SHUCKING BEE

... was the reason for a call Monday from the State Editor of the San Antonio Light. He wants to publicize our big event coming up on August 25 and we're happy to oblige. The pictures he wants have not been firmed up yet, but we do have an idea for one or two.

Bill McReynolds of WOAI radio mentioned the event Monday morning on his farm show. Thanks, Bill. We appreciate the help.

Now, with publicity and more still to come, we need plenty of corn shuckers. Have you entered? It only costs \$1.00 to do so and you might win \$25 cash, if you're good enough at the game.

# Fire destroys U/R storehouse Tuesday

A recently-filled storehouse at the Universal Rundle pottery west of Hondo at the Air base was destroyed completely by fire Tuesday, burning out of control for over two hours and causing a pall of black smoke visible more than ten miles away.

The fire, of still-unknown origin, began in a storage annex east of the pottery complex at about 4 p.m. Tuesday. By the time the blaze was brought under control about 6 p.m., an estimated \$265,000 damage had been done to the building and its contents.

Witnesses reported seeing a large puff of smoke which subsided momentarily. Then, thick smoke began billowing from the building.

Firemen from Hondo, Gary Aircraft, D'Hanis and Castroville responded to the alarm, but the fast-spreading fire completely enveloped the building and broke through the roof in minutes, defying all attempts to drown it in

water.

As the destruction of the storehouse became evident, firemen worked to save a nearby high-voltage line which supplies the pottery complex.

A recent shipment of fiberglass bathtubs and china fixtures filled

the warehouse, and these and other contents were declared a total loss, along with the building, in estimating the total damage, according to plant Manager W. S. Porter.

No one was in the building when the fire broke out, and no injuries

were suffered by any of the 100-plus firemen at the scene despite intense heat and heavy, black smoke.

Small fires burned late into the night, and a fire truck was left at the smoky scene overnight to ward off a reignition of the flames.

## School Registration set Aug. 8

Hondo High School will conduct registration in the Principal's Office from 8 a.m. to 12 noon and from 1 to 4 p.m. August 8, for new students and students who wish to make a change in their pre-registered course of study.

No students who were pre-registered during April and May, 1973, need register unless they wish to make a course change. McDowell eighth graders of 1972-73 are included in those who were pre-registered.

New students are reminded to have a transcript forwarded from the last school they attended. New students to Hondo should bring their most current report card and/or grade slips.

Students who will be out of town or otherwise unavailable on August 8 should call the principal's office as soon as possible.

Grades Kindergarten thru 3 will register in the principal's office of the Meyer Elementary School on August 8, from 8 a.m. to 12 noon and 1 to 4 p.m. Kindergarten

students who cannot speak or comprehend the English language to the extent that they are not familiar with the common English language words that are necessary for normal progress in the first grade or a child who is from a family whose annual income is \$3,000 or less and who will be five years old on or before September 1, 1973, are eligible to enroll in the kindergarten program. This program is a full-day, all year, non-tuition program.

All English speaking students who will be five years old on or before September 1, 1973, are eligible for a full day kindergarten program for one-half of the school year. The older half of the English speaking five year olds will attend the first half of the year and the younger English speaking five year olds will attend the second half of the year.

Every parent is urged to register their five year old regardless of prior registration in that the law governing English speaking five

year olds has changed from that set by the 61st legislature of 1969.

Children entering the kindergarten program and the first grade are required to have a birth certificate and immunization record upon entry in either grade.

Grades 4 - 8 will register in the library of the McDowell School between 8 a.m. and 12 noon and 1 to 4 p.m. on August 8. New students to Hondo Schools must have their most current report card and/or grade slips.

As noted in the school calendar, the opening day of school for teachers in-service is August 20. Buses will run on the same time and route schedule as last year and will pick up students on the first school day for students which is August 22. School hours are as follows: all schools first bell is at 8:30 a.m., classes begin at 8:35 a.m. and school will be dismissed at 3:35 p.m. Lunch time at high school is from 11:45 a.m. to 12:40 p.m.; Meyer and McDowell lunch time is from 12 noon to 1 p.m.

## Food Stamp program set for Oct. 1

The new statewide food stamp program will start operation on October 1, 1973 in Medina County.

This was announced by Raymond G. Cheves, Regional Administrator, State Department of Public Welfare, San Antonio, and Anton A. Svatek, Food Stamp Program Director, San Antonio.

"The statewide food stamp program will replace the commodity foods program currently operating in this county," explains Svatek. "The statewide program was made possible when the 1972 Texas Legislature appropriated \$7.7 million for a state-administered, state-financed statewide food stamp program."

The State Department of Public Welfare will administer the new program and the United States of Agriculture will provide the food stamps and bonus stamps.

Eligible households pay a set amount for food stamps and are then given bonus stamps based on size of household and their total net income. Bonus stamps make up the difference between what a household can pay for food and what is necessary for a nutritious diet.

Also, bonus stamps mean many dollars worth of new business for the community. Bonus stamps represent money that low-income households would not otherwise have to spend at local grocery stores.

A recent study of three rural food stamp communities showed that food stamps represented from five to ten percent of the total retail food sales.

Households are certified eligible for food stamps at the food stamp offices at the Commodity Office located at the Hondo Municipal Airport, or the local welfare office. Certified households will then receive Authorization To Purchase (ATP) cards in the mail which will tell them how many stamps they are eligible for and how much money, if any, they must pay for

## D'Hanis Homecoming to be held Sunday August 5

Scores of out-of-town visitors are expected in D'Hanis Sunday, August 5, when the annual homecoming day is celebrated with the traditional barbecue beef dinner, afternoon amusements and a dance in St. Dominic Hall.

Parishoners of Holy Cross Church will be working through the week to prepare enough Alsatian-flavored dishes to feed some 3,000 persons who make this annual pilgrimage.

The celebrated feast consists of barbecue beef, potato salad, slaw, pickles, beans, cake, tea and coffee. Serving will begin at 11:30 a.m. and continue until 2:30 p.m.

Visitors may eat in St. Dominic Hall or in the shade of a grove of pecan trees that surround the building.

Besides the featured meal, there will be other attractions on the grounds including games, drawings, ball-throwing stands, rides for kiddies, refreshments of all kinds and a dance.

Proceeds will go to the benefit of Holy Cross Church.

New innovations in the handling of food, including a special line for food-to-go, have reduced considerably the time spent standing in line, according to Father Victor Schmidtzinsky, pastor of the church.

The celebration will begin with a 10 a.m. Mass in Holy Cross Church which will feature music by the St. Gregory's Choir of San Antonio.

During the afternoon, the crowds will be entertained by more music -- this time from Ramon Villa and his Mariachi de San Juan orchestra.

Tamales will be on sale on the grounds during the afternoon, sponsored by the Caballeros de San Jose.

At night, the Riedel Brothers will

play for a CYO-sponsored dance, which will last from 8 to 12 p.m.

General chairman of the event is Joe W. Rothe, prominent local banker.

Rothe said his committees will function to insure an adequate amount of food for the expected throng.

COME ON OVER! -- And spent Sunday, August 5, in the shade of the sprawling pecan trees of Holy Cross Parish, D'Hanis, for the 126th Anniversary Homecoming. There'll be food, drink, games, and dancing as shown on the huge sign. Joining in the welcome are Chairmen of the event, from left to

right: Altar Society President Mrs. Joe Fillingner, CYO President Bobby Joe Rothe, Pastor Father Victor Schmidtzinsky, General Chairman Joe W. Rothe, Publicity Chairman Whitey Zinsmeyer, and Caballeros de San Jose President David Trevino.

Proprietors  
"The Other Place"

Being newcomers to the Hondo area only three years, we read your column with interest. Having noticed your comment about our yellow ribbon we thought you might be interested in knowing that the message has indeed reached the intended recipient, pardon me, the term should be plural, recipients.

Travelers from Florida to California, as well as from San Antonio to Uvalde, have stopped to thank us for the friendly gesture. We always give them post cards from Hondo as souvenirs.

AN Ben Ybarra was selected as the VS-22 Plane Captain of the Month for June 1973.

## Ben Ybarra honored by Commander

Stories of "Local Boy Makes Good" are always big news, and when it concerns a young Hondoan in the military who is cited by his commanding officer it is a doubly rewarding story.

Such is the story of Ben Ybarra, stationed at the Davisville Naval Air Station, Davisville, Rhode Island.

Ben was chosen as Air Antisubmarine Squadron TWENTY-TWO Plane Captain of the Month for June, 1973.

He is the son of Mr. and Mrs. Gabriel Ybarra of 405 22nd St. in Hondo.

His Commanding officer, Cmdr. R. W. Phillips, presented Ybarra with a letter, of commendation, which reads:

"It is with pleasure that I present you with this award as the Air Antisubmarine Squadron TWENTY-TWO Plane Captain of the Month for June 1973.

"You have distinguished yourself as an S2E Plane Captain during this past month. Your performance in carrying out the varied duties assigned to Plane Captains has been outstanding.

"Along with carrying out your normal Plane Captain duties, you have been in charge of the Aviation Ground Support Equipment, and were recently appointed as Acting Division Training Petty Officer. Your attention to detail and strict adherence to proper procedures have been instrumental in the excellent safety record that the division has attained since your arrival.

"This award recognizes your abilities and performance. You have set an example for others both on and off the job. Continue the good work and well done." (Signed) R. W. Phillips.

A sudden rainshower sneaked up on Medina County Tuesday about noon and dumped rains up to three inches over the county. Heaviest rains were in Yancey which recorded three inches.

Other readings include: Hondo, 1.40; Walter Saathoff, 1.50; D'Hanis, 1.50; Billy Rothe, 1.80; Al Hollmig, 1.60; Floyd Saathoff, 2 in.; T. Hollmig, 2 in. ancho Chico, 2.25; E. Bader, 1.25; and G. Brucks, 1.10.

More information on rainfall was supplied by Ray Rexroad of the Radar Station. In July, according to Rexroad, Hondo has recorded 11.71 inches of rain. Total for 1973 at this time is 31.84 inches, compared to the maximum annual total of 44.70 for the period between 1941 and 1970.

Another point is this: in 1960 on August 1, Hondo had recorded 5.77 total, and in 1942, the total at that date was 6.01.

## Chamber Corner

By Lillian Porter,  
Exec. Secretary

This last week was a fun one because of the excitement and enthusiasm of the youth from Hondo and many other areas who enrolled in the Medina County Youth Rodeo. In talking with Peggy Heyen, Secretary of the MCYR, I learned there were 98 contestants. Each year more youngsters have enrolled, which makes for a bigger and better rodeo.

Incoming letters, we had many similar to this one: "July 23, 1973

#### More about . . .

### ★★ Food Stamps

them. The ATP card and the necessary cash are redeemable for food stamps at local issuance offices.

Participating grocers accept food stamps for the purchase of most foods and food products. Food stamps cannot be used to buy alcoholic beverages, tobacco and most imported items.

Participation in the food stamp program is voluntary and does not prevent the household from receiving any other benefits for which the members might be eligible.

Food stamps increase the food purchasing power of low-income households. And food stamps are also good for the community's economy. Studies show that food stamps generate new economy and create new jobs.

Certification for eligibility should begin August 6, 1973. For further information about the food stamp program, contact the food stamp offices at the Commodity Office at Hondo Municipal Airport, or the local welfare office.

Certification of persons wishing to participate in the state-wide food

stamp program will begin August 6, 1973, according to Svatek.

"If you are unemployed, don't make much money or receive public assistance, you may be eligible for food stamps," Svatek explained. "With food stamps, you spend the same amount you presently do for groceries but receive more and better food for your money."

Food stamps increase the purchasing power of low-income households by 10 to 30 percent or even more. And food stamps are a good means for using America's agricultural abundance while helping those who can't afford it to eat better.

Certification is done at the food stamp office at the Commodity Office at Municipal Airport, Hondo, or the local welfare office. When applying for food stamps, persons should take with them proof of income, shelter expenses, medical bills and bank accounts.

The State Department of Public Welfare administers the program which is financed by the State of Texas and the United States Department of Agriculture.

## No set-aside for 1974, says USDA

The 1974 farm program released by the U.S. Department of Agriculture through the Agricultural Stabilization and Conservation Service will emphasize all-out production of farm goods, reports Floyd M. Smith, County Executive Director.

To assure adequate supplies for domestic and export markets, Secretary of Agriculture Earl Butz has announced that there will be no government set-aside of land for 1974 for feed grains, wheat, or cotton.

The maintenance of an established conserving base will not be required as a condition of eligibility to receive price support or program

payments. An exception to this is for Cropland Adjustment Program agreements which are not terminated. For these, conserving use requirements will remain in effect.

Producers with existing CAP agreements which continue through 1974 and subsequent years will, at their option, have the opportunity to terminate such agreements.

Regarding the 1973 program, set-aside and Conserving Base requirements remain in effect through 1973. Producers are reminded that grazing and/or haying of set-aside acreage is not authorized unless permission is requested prior to grazing or haying of set-aside acreage.

## Mrs. Marciana Gonzales dies at age 94

Mrs. Marciana Gonzales, 94, died July 29, 1973 in Hondo. She had lived in the Hondo area for 60 years. A housewife, she was a member of the Catholic Church.

She was born in June of 1879 in Mexico City to Sostenes Martinez and Tomasita Manchaca, who preceded her in death. Her husband, Felestino Gonzales, died in 1944.

Mrs. Gonzales is survived by a son, Lasaro Gonzales of Hondo; three daughters, Mrs. Celia G. Ybarra and Miss Maria Gonzales of Hondo, and Mrs. Ofelia G. Santos of Yancey; a brother, Francisco C. Martinez of San Antonio; 22 grandchildren, and 34 great-grandchildren.

Rosary was recited on July 30 at the Guinn-Horger Chapel.

Funeral Mass was held July 31 in St. John's Catholic Church with Fr. George Steubben, pastor of St. John's, officiating.

Interment was in Guadalupe Cemetery. Pallbearers were Margo Martinez, E. J. Chapa, Manuel Alcaraz, Sr., Pablo

Guajardo, Ramon Gauna and Armando Gonzales. Funeral arrangements were by Guinn-Horger Funeral Home, Hondo.

Mrs. Nixon Dillard

Museum membership drive to begin

The fifth annual membership drive of the Medina County Museum begins August 1st. The directors of the Museum are proud of the past year's achievements due to the annual drive and Museum Day, Mrs. O. M. Redus, membership chairman said.

Plans for continued improvements are in the making. Annual memberships are \$2, patrons \$10 and life \$100. These can be mailed to P.O. Box 426. Members are eligible to attend all Museum meetings.

The 66-year old depot continues to serve our area as well as a point of interest to others. Saturday morning, July 22nd, two young ladies from Austin, students at the University, under a grant came to research our old depot and took many pictures. A history of our depot along with several others in Texas will be put into historical form. O. M. and I were glad to show the girls around, along with some visitors from Florida.

Miss Wilson, Mr. Dillard wed

Miss Gail Wilson and Nixon Dillard were united in marriage on Saturday, July 14, in a late evening ceremony on the lawn of the bride's home. Rev. Tom Hogan of Garwood officiated.

The bride is the daughter of Mr. and Mrs. George Wilson of Hondo and Mr. and Mrs. Carl Dillard of Pearsall are parents of the groom.

Lighted hurricane lamps of white wrought iron trimmed with ivy formed an aisle. A white wrought iron, ivy-covered arch, and white hurricane lamp candelabra holding bouquets of summer flowers in pastel shades of pink, yellow, and orange was used as a setting for the double ring ceremony. Mrs. Chester Schmidt, organist, played the traditional wedding music.

The bride, who entered with her father, wore a wedding gown of silken organza appliqued with crocheted lace on the high neck yoke and cap sleeves. Grosgrain ribbon appli-

qued with the lace encircled the waist and bordered the hemline of an A-line skirt that carried a gracefully wide chapel train. The grosgrain fashioned a bow at the back of the waist and fell in streamers into the train.

Attached to a high rising Camelot headpiece of Venice embroidered white flowers, was a flowing short white silk illusion net veil edged with tiny white Venice flowers. These same flowers scattered daintly atop the bouffant netting where it fell from the headpiece.

She carried a bouquet of yellow roses, daisies, white carnations and baby's breath.

For something old, the bride carried three handkerchiefs which had been used by brides of three generations in the groom's family - his great-grandmother, the late Mrs. Cowley; his grandmother, Mrs. B. K. Nixon; and his mother, Mrs. Carl Dillard. For something new, she added her own handkerchief which was a bridal

gift from one of her bridesmaids.

Miss Peggy Wilson of Hondo was her cousin's maid of honor. Bridesmaids were Miss Dana Dillard, the groom's sister from Pearsall; Miss Lica East of Encino; Mrs. Court Kountz of College Station; and Mrs. Mike Perryman of Mission.

The bride's attendants wore long dresses with short puffed sleeves of imported cotton allura shantung in an apple green and white floral print and white picture hats trimmed with matching green ribbon. They carried nosegays of miniature carnations, daisies, mums and baby's breath in pastel shades of yellow, pink and orange with streamers of the same shades.

Serving the groom as best man was Robert Kirkwood of Pearsall. Groomsmen were Monte Jacoby of Denton; Johnny Heiligman of Big Foot; Tommy McKinley of Pearsall; and Jimmy White of Marfa.

Ushers were Dick Hancock of Austin and Daryl Van Deventer of Houston.

Tony Hackbeil entertained with organ music during the reception which was held immediately following the ceremony. After the buffet, the four-tiered cake and punch were served from the bride's table which was covered with a yellow cloth and held a centerpiece of white wrought iron hurricane lamp candelabra and summer flowers in pastel shades. Serving were Miss Cyndee Remmert and Cynthia Hughes of Bishop; Mrs. Billy R. Griffith of Kingsville, and Miss Judy Zerr of Hondo.

Chocolate chiffon cake was served from the groom's table which was covered with a gold cloth. The centerpiece was brass hurricane lamps surrounded by the bridesmaids' bouquets. Miss Gail Wright of Corpus Christi; Miss Dana Vittitoe of Falfurrias, Miss Patti Malone of Beeville, and Miss Shauna White of Hondo alternated in serving.

Registration tables were set at the entrances of the yard. Each held a large hurricane lamp with pastel flowers. Misses Theresa Fohn and Brenda Hale, the bride's cousins from Marion, registered the guests. The gift table was covered with a white cloth and was centered with a wrought iron cage holding two white doves, encircled by yellow mums and greenery.

Rice bags were distributed by Robyn and Lynda Amberson of Hondo, Anna Buescher of Hondo and Dana Ward of Yancey.

For traveling, the bride wore a pale pink knit dress with a matching jacket and white accessories. Her corsage was of pink baby orchids.

Following a wedding trip to Mexico City, the couple will be at home in Alice, Texas.

Rehearsal Dinner

The Stockman Restaurant on the river in San Antonio was the scene for the rehearsal dinner honoring Gail Wilson and Nixon Dillard. Hosts for the occasion, held on July 13th, were the groom's parents, Mr. and Mrs. E. Carl Dillard.

A Mexican theme was carried throughout with Mexican wedding candles centering each table.

Entertaining the wedding party, parents, and grandparents of the engaged couple were strolling mariachis.

Luncheon

On Saturday July 14, Mrs. Roy Wilson's home at 1102 29th Street in Hondo, was the setting for a bridal luncheon given by Miss Peggy Wilson, honoring her cousin, Miss Gail Wilson.

Guests included the bride's mother, her bridesmaids, and Mrs. Monte Jacoby of Denton, Miss Theresa Seitz of Mission, Mrs. John Schott of Irving, Mrs. Mike Dodson of Sabinal, Miss Jo Ann Heiligman and Mrs. Tommy Wilson of Yancey, and Misses Marcy Garrison, Shauna White, Judy Zerr and Claire Miller of Hondo.

Last week, 7/19, not only did the Electronic Age desert the ANVIL HERALD [as per a page one headline] but it might also have been involved in promoting McGuffey's First New ECLECTIC Reader for Young Learners [Pub. 1885] to 20th Century status! "Electric" readers, yet!

Can't always trust them new fangled contraptions, can we?

Museum news was good and most encouraging last week, as reported in SPARKS. Special appreciation is due the volunteers who have rallied to the support of keeping the Museum open daily. The results of their generous civic efforts might well be considered their most satisfying reward. Remember what Longfellow said: "No endeavor is in vain; its reward is in the doing."

And then there's the more modern and often quoted, "There's no limit to the good a man can do, if he doesn't mind who gets the credit."

Fact of the matter is, I envy those volunteers and wish [cross my heart!] that I could be there to share the duty, accompanied by the tools of my trade - an inquisitive pencil and a ready notebook.

Would you believe that world population of those of us older than 65 [and willing to admit it] has increased by 24 million in the past five years to a present total of more than 100 million?

United Nations statistics claim that population, as a whole, is expected to grow by only 11 percent. Guess what the population of us hanger-on-ers is supposed to do meantime? Increase by 24 percent in the next decade, that's what.

Ain't nature grand? Or, better hold on to those old high top button shoes and suspenders. They might be back in style any day now. Perish the thought!

Some weeks ago, JEANETTE and MARIETTE AELVOET won honors for their participation in the State 4H Vegetable Contest Roundup held at Texas A&M University.

I'd have given them an extra "plus" for their picture which appeared in this newspaper. Lovely, lovely were their smiles, their unsophisticated hair-dos and their flowered frocks, reminders that beauty in young womanhood is truly, as Emerson observed in one of his poems, "its own excuse for being."

What a pleasure it was to find in one day's mail letters from CLAIRE Mrs. Damon WESTBROOK, the O. B. TAYLORS and our friend of many years, Fr. C. M. KUEHNE of St. Mary's U.

I had sent Claire a news story about a local woman who works "magic" with cakes. Claire writes a delightful letter and covers topics of mutual interest. I enjoyed the report of her sons: "... still has LONG hair but I try to think about the man under the bush" ... "and a friend are scraping and painting houses, motorecycling to and from Tarpley and taking a dip in the old Hondo as cooler on the way home" ... "My youngest [once the baby] is 16 and 187 pounds of muscle, adding more to be in good OWL shape for this fall."

"Doc" acknowledged a clipping I had sent him about weather forecasts and recalled stormy trips he had experienced crossing the Atlantic in WWI days. Doc's diaries are faithful records of his active participation many areas of his busy life. He added this note: "The cenizas are blooming. I say rain this weekend. SO??" [Who'd dare bet against that?]

Fr. Kuehne informed me that I am to receive a gift copy of his latest book "HURRICANE JUNCTION", courtesy of my ever-lovin' sister Sally. He also sent me a letter he had received from Miss CARMEN PERRY, a dear friend who was among many of us who served in Postal Censorship during WWII. She is now Archivist at St. Mary's U and she had furnished Father K with a list of names [150 of them] as prospective purchasers of the book.

I want to add this from Claire W's letter: "Our recent St. John's Festival was a success but my Damon, [after many years of being known as the "Bean King"] admits to getting tired. He says next year he thinks he'll go as a plain Methodist and just plain enjoy the whole festival!"

The news of the Medina Lake Spillway overflow revives happy memories. In the years when Texas had a closed fishing season [Jan. Feb. March], waiting for the new season to open April 1, was like waiting for Christmas!

One year, I caught the biggest bass I ever caught [a mere 6-pounder] on my little flyrod in a spot very near the swirling waters of that year's overflow.

If Medina's spillway level continues to hold as it has [nearly] for almost two years now, maybe enough more Texans will buy fishing licenses to up the state's present standing, of second place in the number of licenses issued, to give California a bad time. Texas has moved from fifth to second place in the ten-year period [1962-72] but ... someday, maybe, "California, here we come!"

\*\*\*

And, speaking of the Golden Gate State, the Vista [CA] Press reports: "A foreigner visiting the U.S. thought 'oakie doakie' was the feminine of 'O.K.' Of course, he was mistaken. The feminine of OK is 'Maybe'."

Mrs. O. V. (Winifred) Secrest, 54, of Devine, died Sunday. She was a former employee of the Hondo Anvil Herald. Graveside services were held at 10 a.m. Tuesday, July 31, in Evergreen Cemetery, in Devine, under the direction of Hurley Funeral Home. She is survived by her husband, two daughters, her father, a sister and four grandchildren.

**Hondo HD Club sponsors eye test**

Did you know an eye test can be fun? All first grade students for this school year may come to the Methodist Educational Building on August 9th from 9:30 to 11:30 a.m. and find out about the "magic shoes" and the "spinning table". The game we play enables this child, who can't read, to be screened for visual problems, very effectively. The Hondo Home Demonstration Club is sponsor for this project, and we hope every potential first grader will be brought in by his parents. A vision problem can be a tragic and needless handicap for a child going through school. In case of referrals, which means a complete professional eye examination is required, more information will be given on possible assistance in these examinations.

## Local firm to increase capacity

Because of the increased demand for Medina Soil Activator, Medina Agriculture Products Co., Inc. is increasing its manufacturing facilities by more than three times the present production capacity, Arthur Franke, President, reports.

The greater demand is due to the increase in yield and quality farmers are experiencing from the use of Medina Soil Activator.

Wheat farmers have averaged 8 to 31½ bushels per acre increase over the past three years in hundreds of measured tests. Protein tests proved Medina has increased this important quality by over 1% above untreated acres.

Alfalfa growers in the Roswell - Artesia area have improved their yields by more than a ton per acre, and the increase in protein average more than 3%.

Dr. E. D. Cook, head of the Agriculture department, Lubbock Christian College, found in five years of testing that Medina has increased cotton yields by more than 130 pounds of lint per acre.

With some of the largest farmers now using Medina, such as the Dale Steel's farms of Ford and Tribune, Kansas, (9,000 acres of wheat) it's easy to see the need to increase production, Franke said.

### FFA NEWS

The Hondo FFA Chapter will hold a meeting on Monday night, August 6th, at 8:30 p.m. in the Vocational Agriculture Building. All new vocational agriculture boys who will be in class when school starts are urged to attend this meeting.

There will be a number of reports given by the chapter officers to the group. A report on the STATE FFA Degree winners will be made by Mr. Schmidt. Gary Saathoff will give a report on the State Range Camp at Junction.

Gene McAnelly will give a report on the chapter financial standing and the possible sale of hay crop. Plans will be discussed for the securing of livestock or poultry for boys productive projects.

New members will be given some background about the FFA Chapter and the vocational agriculture program at Hondo High School.

Following the meeting refreshments will be served.

### Social Security Questions & Answers

**QUESTION:** How long will I be given to decide whether I want medical insurance coverage or not?  
**ANSWER:** Each person subject to automatic enrollment will be notified that he has until a specified date in which to decline the medical insurance.

**NEW AREA OFFICERS**-Pictured are five of the Area VII FFA officers, [Left to Right]: Jimmy Shaver of Stockdale, Larry Lightfoot of San Marcos, Kenny Lively of San Saba, Larry McWilliams of Hondo and Darwin Anderson of Round Rock.

### FFA officers chosen

The Area VII FFA officers for the 1973-74 school year held an executive meeting at San Marcos in June to plan for Chapter and Area FFA activities for the coming school year.

Each Area Officer represents one of the six districts in Area VII.

McWilliams is serving as chapter president of the Hondo FFA Chapter for the 1973-74 school year.

## Edwards film is available for showing

Available for public showing is a 10-minute sound color film on the remarkable Edwards Underground Reservoir from which Bexar, Uvalde, Medina, Comal and Hays Counties get their water.

Program chairmen of civic and service clubs may book the film by calling the Edwards Underground Water District, 222-2871, San Antonio, or by writing to the district, Tower Life Building, San Antonio 78205.

Two outstanding authorities on the Edwards Aquifer are also available, with the film, to answer questions from the audience and make comments on the aquifer. They are William H. Spice, Jr., chairman of the board of directors of the EUWD, and Col. McDonald D. Weinert, engineer-general manager of the district.

Spice is a consulting petroleum geologist, a registered professional engineer and a founding member of the Society of Independent Professional Earth Scientists. He holds geology degrees from Hamilton College in New York State and Harvard University.

Weinert, also a profes-

sional engineer, is a graduate of Texas A&M University and spent 13 years with the U.S. Army Corps of Engineers and two years as chief engineer for the State Water Planning Agency of Texas when that agency was formed in 1958. He became engineer-manager of the Edwards Underground Water District in 1960. The EUWD was created by the Texas Legislature in 1959 for the purpose of protecting, conserving and recharging the Edwards Underground Reservoir.

Spice became interested in the unique geological formation while doing geology work in the oilfields at Luling and vicinity. The remarkable Edwards formation, which has provided oil for half a century at Luling, also provides drinking water, that is pure it does not have to be treated, to more than a million people.

The purity of the water in the aquifer has been worth many millions of dollars, and one of the purposes of the EUWD is to prevent any pollution of this priceless geological asset, Spice said.

## Showers honor Miss Ellen Rothe

Miss Ellen Rothe, bride-elect of Fred Schueling, Jr., was honored with a miscellaneous bridal shower Sunday afternoon, July 29, at the D'Haris School cafeteria.

Mrs. Wayne Cheney, aunt of the bride, received the guests. Also in the receiving line with the honoree were the mothers and grandmothers of the bride and groom-elect, Mrs. Lawrence Rothe, Mrs. Fred Schueling, Sr., Mrs. Eric Rothe and Mrs. John J. Schueling.

Registering the guests was Mrs. Greg Rothe. The serving table was laid with a white cloth and white net and trimmed with a mint green ribbon. A beautiful centerpiece of spring flowers adorned the table. Cake, punch, mints and nuts were served by Mrs. Dennis Hermann, Misses Marty Rothe, Marcy Garrison and Peggy Wilson.

Hostesses for the occasion were: Mmes. Thomas Attaway, Russell Attaway, John Henry Boehle, Wayne Cheney, J. Melvin Finger, Tom Finger, Herman Fohn, John Gilhooly, Robert Golden, Leo Highsmith, Jack Landers, Joe Langfield, Bill Laughinghouse and Joe Martin.

Also, Mmes. David McGhee, Dan Nester, Herman Ney, John Ney, James Pichot, Paul Polhemus, Ferd Rock, Jr., Jimmie Rogers, Howard Rothe, Joe W. Rothe, Robert Rothe, Chester Saathoff, Arnold Saunders, Sam Strunk, John Tondre, Ronny Werth, Ray Wolff, Maurice Zerr and Jack Zinsmeyer.

Also, Misses Karen Burrell, Christi Rothe and Gail Rothe.

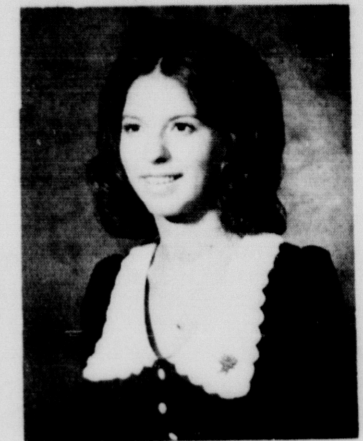

### MAST helicopter airlifts Rebecca Rodriguez

Little Rebecca Rodriguez, four-year-old daughter of Mr. and Mrs. Ernesto Rodriguez of Hondo, was airlifted via MAST helicopter to Santa Rosa Children's Hospital in San Antonio at about 2:45 p.m. Sunday.

She had been taken to Medina Memorial Hospital for emergency treatment after suffering head injuries in a fall from her bicycle.

**Personal Shower**  
On Saturday, July 21, Miss Rothe was honored with a personal shower at the home of Mrs. Eric Rothe.

Hostesses for the occasion were: Mmes. Dennis Hermann, Greg Rothe, Steve Turner, and Misses

### Pvt. Francisco Alvarez completes training at Ft. Polk

Ft. Polk, La. -- Army Private Francisco Alvarez, Jr., 17, whose parents live on Yancey Star Route, Hondo, recently completed nine weeks of advanced individual training at the U. S. Army Infantry Training Center, Ft. Polk, La.

He received general training as a light weapons infantryman and as a mortar and recoilless rifle crewman, in addition to specialized weapons instruction.

He also was taught the proper use of high explosives and the placement, detection and disarming of mines.

Teamwork was emphasized while he learned to work as a member of a rifle squad, mortar squad or direct fire section. Each team member completed the training well qualified to perform other jobs in case of casualties.

### Bond sales reported

June sales of Series E and H United States Savings Bonds amounting to \$10,611 in Medina County were reported today by the County Bond Chairman. Sales for the first six months totaled \$73,458 for 49% of the 1973 goal of \$150,000.

Sales in Texas during the month amounted to \$16,998,554 -- while sales for the first half of 1973 totaled \$119,984,282 with 55% of the yearly goal of \$216.6 million goal achieved.

# America Can Solve The Energy Problem

The ability to meet the demands of a growing country has always been a trait of the American people.

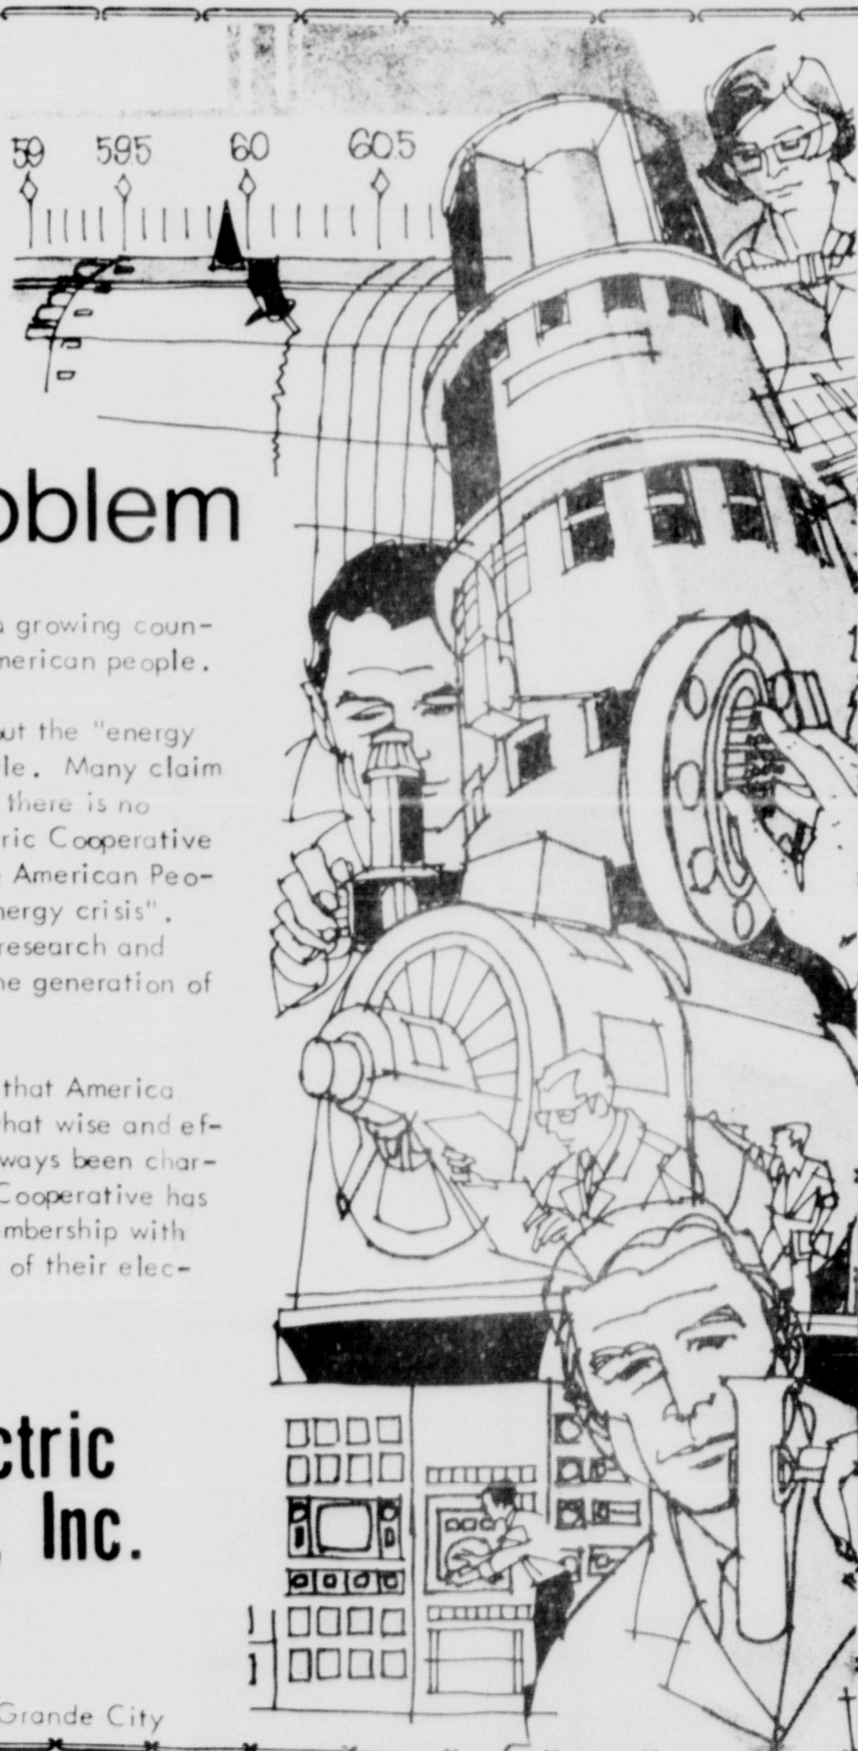

Today, we hear much discussion about the "energy crisis", and its effect on our life style. Many claim we have reached the rope's end and there is no place to go; however, Medina Electric Cooperative has faith in the determination of the American People to meet the challenge of the "energy crisis". That is why we are participating in research and development of alternate fuels for the generation of electricity.

Medina Electric Cooperative knows that America can solve the energy problem, and that wise and efficient use of electric energy has always been characteristic of its membership. Your Cooperative has trained employees to provide the membership with information concerning the wise use of their electricity.

The electric way is clean.

## Young Farmers hold crops tour

The Hondo Young Farmer Chapter held a "Members-Crop-Tour" on the afternoon of July 20. Twenty-seven Young Farmers and guests were in attendance for the 30-mile crop-tour.

The group met at the Hondo Vocational Agriculture Building to begin the tour. The first stop was at the Yanta Farms near Devine where Fred and Edwin Yanta showed their irrigated milo and corn crops. The second stop was at the Wernet farm where weed-killer had been applied to a milo crop and had affected the setting of seed on the heads.

The third stop was at Wilbur Lindeburg's farm, where the group studied irrigated milo and irrigated corn crops. The large

grain storage bin was shown where air is forced through the grain to lower its moisture content after being placed in storage.

The fourth stop was at William Reus farm where they saw dry-land milo crops and some more irrigated corn and irrigated milo.

The Parker Creek dam-site on the Gilliam Ranch was the next stop. Here the group observed the work crews filling in the dam-core with topsoil. The group was told that the recent rains had filtered into the underground in two days. The dam, when completed, should be capable of backing water three miles upstream, but only time will tell how fast these flood waters will flow into the underground.

En route to the dam-site, the tour-group observed where sheep were being used to control weed growth in the irrigated corn on Gilliam farms. The sheep had stripped all leaves from the corn stalks to a height of 3 feet or more.

The fifth stop of the crop-tour was at Jimmy Amberson's dry-land milo field. This late-planted field shows promises of making a record crop yield due to the wet season in June and July. The crop was planted in mid-May.

The sixth stop of the tour was at the Harlan Wolff farm where 12 different milo variety test plots were studied. From this point the group drove to Wolff's fishing tank.

An evening meal of broiled steaks, potato salad, beans, pickles and cold drinks was enjoyed there. Before the meal was served different members of the group enjoyed playing cards, fishing, visiting and looking for sharks teeth in clay banks from which the D'Hanis brick is made. A number of teeth were found. Records show these teeth to date back more than 60,000 years when this section of North America was underwater.

The President's authority to induct men into the Armed Forces expired on July 1, 1973. The Nixon Administration does not plan to seek an extension of this authority, and the Defense Department is relying on volunteer enlistments to supply military manpower.

Glantz emphasized that only the authority to induct expired. All other provisions of the Military Selective Service Act remain in force. The annual lottery will be held, young men will continue to register, and their local boards will continue to classify them as to their availability for possible military service should Congress authorize the resumption of inductions in the event of a national emergency.

The State Director said the law requires all male persons, except certain nonimmigrant aliens, to register with Selective Service within 30 days before or after their 18th birthday. He said: "Young men have three legal obligations: (1) they must register at age 18, (2) they must notify their local draft board when they change address, and (3) they must carry their draft cards with them until their liability for service expires, for most men this is age 26."

## Cpl. Saenz helps clear mines

USS New Orleans -- Marine Cpl. Raul Saenz, Jr., son of Mr. and Mrs. Raul F. Saenz of Natalia, participated in clearing mines from North Vietnam's major harbors and coastal waterways as a crewmember of Marine Medium Helicopter Squadron 165, aboard this amphibious assault carrier.

The minesweeping called Operation End Sweep, is being conducted by the U.S. 7th Fleet minesweeper ships and specially-equipped helicopters operating from ships, like New Orleans, on anchorage off Haiphong Harbor.

CROP TOUR VISITS REUS FARM--Hondo Young Farmers stopped at the William Reus farm to study his irrigated farming setup. Visible in photo are Kenneth Flory, William Reus, and Steve Nail; [foreground, l-r]: in background are Floyd Saathoff and Wilbur Lindeburg.

## Alamo Wing takes on new program to Puerto Rico

Kelly AFB -- The Air Force Reserve's Alamo Wing will carry 5,000 pounds of sterile screw-worm flies (including containers) to Puerto Rico this month as the reservists take over this important task from the regular Air Force.

The 433rd Tactical Air-lift Wing, along with several other Air Force Reserve units, will be picking up where the 317th Special Operations Squadron of Hurlburt Field, Fla., left off. For nearly two years men of the 317th SOS have flown more than 1,600 sorties totaling some 5,000 hours to carry out this most unusual Air Force project named "Coronet Round-Up."

"Coronet Round-Up" began as a joint project between the U.S. Dept. of Agriculture and the government of Puerto Rico

and the Virgin Islands to eradicate the screwworm infestation in those islands.

Now Air Force reservists from South Texas will be picking up the sterilized screwworm pupae from the production plant near Mission and airlifting them to the dispersal center at Ramey Air Force Base, Puerto Rico. The freight haul will be made by the 433rd's C-130 Hercules aircraft.

From there, Air Force reservists in the islands will carry and drop the sterilized flies from C-7 Caribou aircraft.

Screwworms, deadly pests of warm-blooded animals (including humans) have long been in Puerto Rico, other islands in the Great Antilles, South and Central America, Florida and South Texas. They are the larvae, or maggots, of a

species of blowfly that feed on the healthy flesh of infested animals.

"We know the damage that screwworms have done livestock and wildlife here in Texas," says Alamo Wing Commander Col. Harry Huff, "and we know the good that the screwworm eradication program has done. That's why we're looking forward to being able to help our neighbors down south on this project."

## BAM water district gives opposition to big airport

The BAM Citizens (Bexar, Atascosa, Medina) citizens in opposition to the San Antonio Airport Site II and Alternate II Executive Committee will hold a second public meeting with State and County officials in attendance.

The meeting will be Friday, August 3rd, at 8:00 p.m. in the Medina Valley Junior High Gymnasium, LaCoste.

State Representative John Poerner and Medina County Judge Jerome Decker will be guest speakers. Also, County Commissioner Hilmer Mangold will be in attendance.

They will give information on the proposed sites. Also, officials of the Bexar-Medina-Atascosa Water Imp. Dist. No. 1 have been invited to give a report on the damage the airport would do to the irrigation canal system.

An up-to-date progress report will be given by the various committee chairmen. A report made by Irvin Keeter, chairman of BAM, at a recent meeting of the executive committee, noted that the contractor, Marmon, Mok & Green, Inc., have asked to withdraw the study to make some revisions before presenting the study to the AACOG Executive Committee.

Every citizen is urged to attend this meeting. It does not matter if you live in LaCoste, Castroville, Rio Medina, Lytle, Natchez, Devine, Southwest or Somerset, or in the outlying areas or in one of the proposed sites this meeting concerns you.

### Mrs. Blanche Hall dies in Hondo

Mrs. Blanche Hall of Hondo died in Medina Memorial Hospital in Hondo Thursday, July 26, 1973. She was 83 years old.

Mrs. Hall had lived in Hondo 67 years, and was a resident of Brown's Nursing Center at the time of her death. A housewife, she was a member of the Baptist Church.

She is preceded in death by her parents, D. B. Martin and Laura Kerby; her husband, Jim Hall, who died in 1939; and a daughter, Betty Jean Olhausen, who died in 1954.

### Schneider family holds reunion

A group of 46 descendants of John and Alwina Kothmann Schneider met at the Hondo City Park for their annual reunion on July 29th. A basket lunch was served at noon, with four visitors sharing the good food and fellowship of the day.

A brief business meeting was held in the afternoon with Marvin Schweers, chairman, presiding, and the group decided to hold

its 1974 reunion at Llano. The register showed family members present from Llano, Field Creek, Temple, Austin, Cherokee, San Antonio and Junction as well as the host group from the Hondo area.

### D'Hanis, MV 90's win

A double header played at Hondo High School field Sunday eliminated the Fredericksburg Cubs from the Hill Country League baseball playoff series. D'Hanis and Medina Valley earned slots in the championship playoffs by winning Sunday.

In the opening game, Medina Valley downed the D'Hanis Cardinals 8-7 in extra innings after the Cardinals tied the contest in the final inning of the seven-frame game.

The Cowboys took an early 2-0 lead, but their errors in the third inning allowed Medina Valley to score five runs on three hits. The 90's added two more runs one on a solo home run by Punky Tripp, in the fifth and sixth to lead 7-2 in the last stanza.

But the Cardinals made good use of two walks and two hits, plus a three-run round-tripper by Charlie Rothe, to tie the score. But the would-be winning run was tagged out at the plate to send the game into extra innings.

Medina Valley added another run in the eighth and the Cardinals lost their bid for another tying run at the plate as a broken squeeze play resulted in an interference

call on the batter, and the runner being tagged out.

Chris Keller was the winning pitcher, and Walt Rothe absorbed the loss. Leading hitters were Johnny Zinsmeyer with three hits, Russell Attaway with two, and single hits by Greg Rothe, Walt Rothe, Charles Rothe, Chris Finger, Ray Bendele and Ray Wolff.

Leading hitters for the 90's were Eddie Stecker with two hits, and Ronny Mangold, Ralph Hoog, Punky Tripp, Glynn Tschirhart and Maxie Groff with one each.

In a second seven inning game Sunday, the Cardinals rallied to defeat Fredericksburg 8-5.

The Cardinals jumped to an early 7-0 lead, and held on through two Fredericksburg rallies in the fourth and sixth innings.

Chuck Burrell received the win for the Cards, while Leon Lange was tagged with the loss. Leading D'Hanis hitters were Johnny Zinsmeyer with three, Russell Attaway, Charlie Rothe and Chuck Burrell with two each, and Greg Rothe, Walt Rothe, Ray Bendele, Mike Keefe and John Bendele, each with one hit.

## Owl physicals set

Physical examinations for prospective Hondo Owl football players will be given free of charge at the Field House at Barry Field in Hondo on Friday, August 10, reports Head Coach James Bohls.

The physicals will begin at 7:30 p.m. Bohls adds that all boys planning to participate in football should report then; if not, they still must be examined by their family physician at their own expense.

### Split dove season again this year

A second experimental split mourning dove season was set in a July 12 meeting of the Texas Parks and Wildlife Department Commission.

The commissioners acted on the recommendations of the department staff for a fall North Zone season of Sept. 1 - Oct. 14, 1973; and a fall South Zone season of Sept. 22 - Nov. 4, 1973.

The winter hunting season in both zones is slated to run Jan. 5 - 20, 1974, with the exception of the Trans-Pecos Regulatory District where the winter season will be Jan. 5 - 15, 1974.

In those counties of the South Zone which have white-winged dove hunting the mourning dove season will be concurrent with the Sept. 1 - 2, Sept. 8 - 9 whitewing season with additional mourning dove

hunting Sept. 22 - Oct. 31, 1973.

Bag and possession limits on both mourning and whitewing doves remain the same as they were last year -- 10 and 20 respectively.

Hunting hours for both species of doves are noon to sunset.

Originally, the split mourning dove season was proposed as a one-year experiment to evaluate the effects of winter hunting on dove populations and harvest.

The commission approved a second year for the experimental split season because inclement weather across most of Texas in the January segment curtailed hunting.

Some 91% of the 7.1 million doves harvested last year were taken during the fall portion of the season.

### Schuehle urges rotononing

[Editor's Note: This article was written by Jake Schuehle of Hondo, prominent auto dealer and an avid fisherman. The advice he offers is, as he mentions, the results of his observations of fishing conditions in many area stock tanks and "fishin' holes".]

"This will probably make a lot of people unhappy to try and tell them how to build a good fishing tank on their farm or ranch, but from quite a few years experience and being very observant, here is something worth reading.

"As you know the federal people make you clear all brush and trees from a co-op sponsored government tank. I think this is all wrong and here is part of the proof:

"In past years I have seen Medina Lake and L.B.J. Lake rotononed and half the people attending did not get a mess of fish to take home. I personally have rotononed lakes at the Hobbs Ranch in Brackettville, Texas, Cowan tank in D'Hanis, Rehms tanks in Sabinal, Glasscock tank in D'Hanis, Conring tank in

D'Hanis, etc., and one every other year of my own tanks. The tanks that had brush and trees for protection for the small fish to grow up produced twice as many fish when rotononed as the tanks that were built clean produced. The average tank will build up to good fishing in about two and a half years, get better for the next couple of years and then start to decline. In about seven years you will find it hard to go out and catch a mess of fish. The eighth year you had better rotonone and start over. In three weeks the rotonone will be gone and the tank is ready to be restocked.

"Here is the surprising part of I think you have in your eight year old tanks:

"If I took an average of the last ten small tanks I rotononed here would be the average number of fish killed. Eight big bass, 14 medium size bass, three small bass, 18 large catfish, and no small catfish, and not enough big perch to have a small fish fry.

"This past month I rotononed one of my tanks (eight years old), about one surface acre, always full of clear water, no brush or trees. Results: three big bass, ten two-pound bass, three six inches long, and 30 catfish from two to eight pounds. All were poor, eight perch not eating size. Three previous years you could always catch a stringer full of fish, but the last two years it dwindled to just a big bass or a catfish now and then.

"In other words, the best fishing tanks are those that have brush and trees. If your tank is not producing and all you have in it is a few big fish and if it is eight years old or older you had better rotonone and start over.

"P.S. I do not sell Rotonone."

### Coaches pick

#### Owls 2nd

Coaches attending the Texas Coaching School in Dallas are treating Hondo with a little more respect than the Texas Football Magazine which picked the Owls to finish third in the district.

In Class II the coaches, like the magazine, chose Pearsall to lead the district title race, but they also chose Hondo in second place.

Other AA choices included San Antonio Cole in neighboring 27-AA over perennial leader Randolph, and Kenedy over Floresville in 29-AA.

Other choices listed Bandera on top in 29-A, D'Hanis in 14-B, and Lytle ahead of Sabinal in 30-A.

**MEDINA® SOIL ACTIVATOR**  
can help you make more money

For twelve years Medina Soil Activator has been helping farmers bring their soil to life and higher production. Isn't it time you let it help you too? Apply 1/2-gallon per acre now or just after planting.

The earlier you apply Medina the greater the response will be. Next spring at top dressing time fly on another 1/2-gallon of Medina per acre.

Doug Bales, Muleshoe, Texas stands in his Medina treated Triticale which has been estimated to yield well in excess of 100 bushels per acre.

SUPPLEMENT TO  
HONDO ANVIL HERALD

# Wheat — Triticale \ Oats Barley Rye

Any way you cut it,  
**CATTLE, COMBINE or BOTH**  
**MEDINA® SOIL ACTIVATOR**  
can help you make more money

For twelve years Medina Soil Activator has been helping farmers bring their soil to life and higher production. Isn't it time you let it help you too?  
Apply ½-gallon per acre now or just after planting.

The earlier you apply Medina the greater the response will be. Next spring at top dressing time fly on another ½-gallon of Medina per acre.

Doug Bales, Muleshoe, Texas stands in his Medina treated Triticale which has been estimated to yield well in excess of 100 bushels per acre.

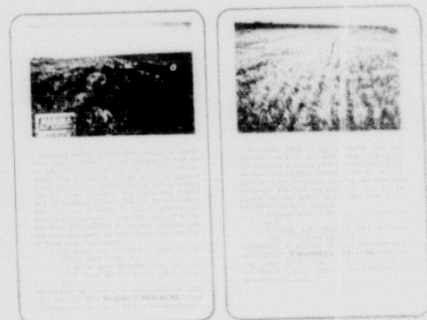

Elma Pruitt, Vice President, Triticale Foods Corp.,<sup>TM</sup> Muleshoe, Texas, used irrigation water only once, just before harvest to produce this outstanding triticale crop.

Pruitt applied Medina Soil Activator to all his crop. He estimates there will be 30 — 60,000 acres planted to Triticale in the Muleshoe area this fall. "We feel Medina will be used on nearly all this because of the results we have seen this year," says Pruitt.

In the August, 1972, issue of IRRIGATION AGE we told you ...

### WHEAT MADE A MONEY CROP AGAIN

Whether grown under reduced irrigation or irrigation, wheat seems to be growing better than ever before. The reason is Medina Soil Activator.

Dale Steele farms 9,000 acres of wheat with his sons at Ford and Tribune, Kansas, and writes, "I have used Medina previously in an experiment on the Ford Farm ... 1,500 acres. I sprayed it on by air at the rate of 1 gallon, 3 quarts, 1/2-gallon and 1 quart. I found the 1/2-gallon produced as

8 to 22 bushel increase per acre at Ford, Kansas.

well as the one gallon rate. Lower than 1/2-gallon was better than no Medina. There was an eight to 22 bushel difference where the Medina was used. Some of the Medina treated heads had four grains to the mesh which I thought unusual as I had never seen more than three grains before.

"Medina was used at both the Ford and Tribune farms this year and it looks as if we will get at least a ten bushel increase where Medina was used at Tribune," says Steele.

Joe Hunter, Genesco, Kansas, has farmed the same land in wheat for the past 30 years. He

read an ad in the IRRIGATION AGE about what Medina did for Don Hicks' wheat last year and decided to use it on his '73 crop. Result ... "The best wheat crop in the 30 years of farming this quarter section," reports Hunter. (We will give you the yields and protein next month in IRRIGATION AGE).

### MORE GRAZING

Gordon Taylor of Sunray, Texas, reports, "The only wheat that produced grazing all winter long in 1972 was where we had applied Medina Soil Activator."

Medina Soil Activator can help you produce more grazing, too.

Treat your soil to life and your bank account to more money.

Use Medina Soil Activator to speed old stubble decay, unlock tied-up plant food, promote a better soil moisture and plant relationship, produce a better

soil tilth, produce more grazing this fall, winter and spring, promote more stooling, more heads, more grain, more protein, MORE MONEY, next harvest.
